

SILVERSTAR SUNSTOP NIGHT VISION T

For the most beautiful views in the world

Efficient sun protection plus reflection-free view

Thanks to minimal internal reflection, SILVERSTAR SUNSTOP Night Vision ensures a reflection-free view of the outside – particularly in the dark.

The insulating glass also offers a brilliant exterior view and all the advantages of an efficient solar protection glass.

Conventional sun protection insulating glass

SILVERSTAR SUNSTOP NIGHT VISION T

In a nutshell

Process

Thanks to special coating, internal reflection is reduced to a minimum 4%

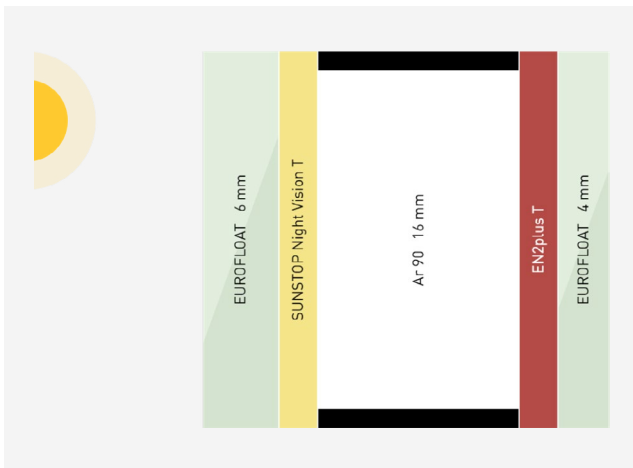

Function

Non-reflecting view; very good summer heat protection during the day

Usage

For houses, hotels or restaurants with spectacular views
